# Safety Data Sheet
Substance Communication Program

The Safety Data Sheet Management program gives you unlimited access to a customized, cloud-based platform where all your SDS information is easily accessible through "keyword" search functionality.

SDS Management Platform

Our SDS Management Program gives your employees instant access to your SDS database from any device with an internet connection, and keeps you compliant with the OSHA Hazard Communication Standard. In addition, our solution follows the Globally Harmonized System of Classification and Labelling of Chemicals (GHS).

Features			
Safety Data Sheet and Historical MSDS Management	Chemical Inventory Management	Poison Control Assistance	Training and 24/7/365 Online Assistance

Quick Access When You Need It Most

| 1	2	3
Click on a customized URL link	Type the name of the chemical	View or Send SDS

Supplier Engagement Built For Success

Our supplier engagement team works 24/7/365 to engage your suppliers in their local time zone and language. We use multi-channel engagement to ensure you get the data you need.

What's the SI Advantage?

Unlimited Access
Unlimited online access to SDS and location specific chemical / hazardous material inventories for your facilities.

Custom Platform
Receive a customized URL and online platform that includes your company branding and logo.

Easy Document Exchange
Print, email, or fax M/SDS and chemical inventories. Give all parties easy access to the information they need in a critical time.

Centralized Information
All chemical information is centralized on the platform and quickly searchable using "keyword" keyword seach functionality.

24/7/365 Hotline Assistance
We are here 24/7/365 to assist in document retreval. We can provide you SDS via email or fax in the event of a chemical exposure, or connect you with poison control.

What do people think?

"We found the Source Intelligence SDS platform to be simple and easy to use, which is what I look for in SDS software."
