SOURCEINTELLIGENCE
Trust your source.

Streamline your path to
Product Compliance

With more than 800 regulations worldwide, product compliance is far from simple. Staying up to date on regulatory obligations, conducting due diligence, and correctly applying documentation are only a few of the many common challenges. Without the proper tools, expertise, or resources, the process is daunting.

How we can help:
Product Compliance Solutions

Source Intelligence offers the largest scope of regulatory program coverage in the industry, including REACH, RoHS, SCIP, Prop 65, TSCA, and PFAS. Our spectrum of solutions facilitates supplier engagement, data analysis, and documentation generation through powerful compliance software with fully managed service options. Regardless of the level of support required, we deliver peace of mind knowing that every part of each product is in line with regulatory standards.

✓ Multi-tiered BOM management

✓ Integrations to all major PLM & ERP platforms

✓ Flexible modular platform

Program Benefits

Reduce internal resource burdens

Streamline due diligence efforts, such as supplier engagement, data collection, and report generation, and refocus internal resources on managing other parts of your business.

Minimize business risk

Easily provide documentation on demand. Your compliance data is housed in a centralized location, so you can efficiently generate reports and declarations to fulfill customer requests.

Gain supply chain visibility

Quickly identify issues with a complete view of your compliance and product data. Our configurable dashboards and BOM rollups display compliance verdicts for every part and component.

Increase risk foresight

Our regulatory experts guide our solution development, ensuring you have the right tools to anticipate changes to your compliance obligations and setting you up for compliance success.
